SECTION B B1

CONTENTS AND INDEX Index

SECTION C

GENERAL INFORMATION

PAGE DRAWING NO.
C1 96 - 0180 - 01

TITLE
Underground Services, Protection of Existing Trees/Environment & Dewatering.
Shoring of Excavations & Use of Explosives.

SECTION D

ALLOCATION OF SPACE FOR SERVICES

PAGE DRAWING NO.
D1 91 - 0084 - 01A
D2 91 - 0084 - 02A
D3 91 - 0084 - 03
D4 91 - 0084 - 04

TITLE
Allocation of Space for Services in New Land Divisions - Sheet 1.
Allocation of Space for Services in New Land Divisions - Sheet 2.
Road Traffic Information Sheet 1.
Road Traffic Information Sheet 2.

SECTION E

REFERENCES

PAGE DRAWING NO.
E1 96 - 0180 - 03

TITLE
Australian Standards, SA Water Specifications, Department of Transport specifications.
List of References and Regulations.

SECTION F

CORROSION PROTECTION

PAGE DRAWING NO.
F1 96 - 0180 - 05

TITLE
General Information.

SECTION G

EXCAVATION, EMBEDMENT & TRENCH FILL

PAGE DRAWING NO.
G1 02 - 0296 - 01
G2 02 - 0156 - 01

G3 02 - 0157 - 01

TITLE
Installation of Sewer Pipes
Trench Excavation & Embedment of Sewers using 10-7 mm Screenings
Reinstatement of Road Pavement, Hard Shoulders & Verges in Road Reserves

SECTION H

PIPE LAYING

PAGE DRAWING NO.
H1 96 - 0059 - 01
H2 96 - 0059 - 02
H3 02 - 0288 - 01

TITLE
Water Seals in Branch Sewers
Pumping Main Discharge into Access Chamber.
Railway Crossings.

SECTION J

VENTS

PAGE DRAWING NO.
J1 94 - 0168 - 01
J2 94 - 0168 - 02
J3 94 - 0168 - 03A

TITLE
Siting and Spacing of Induct and Educt Vents for Trunk Sewers.
General Arrangement of DN 300 Induct Vents off Trunk Sewers.
General Arrangement of DN 300 Educt Vents.

SECTION K

CONNECTIONS

PAGE DRAWING NO.
K1 94 - 0164 - 01A
K2 94 - 0164 - 02A
K3 94 - 0164 - 03A
K4 94 - 0164 - 04A
K5 94 - 0164 - 05A
K6 94 - 0164 - 06A
K7 94 - 0164 - 08A
K8 94 - 0164 - 09A

TITLE
Connection Locations.
Inspection Point Details.
Single Connections.
'Y' Connections.
Connections with Riser off UPVC Sewer.
Connections with 'Jump Up' at Boundary IP.
Connections with Intermediate Riser.
Connections Through Embankment.

SECTION K

PAGE DRAWING NO.
K9 94 - 0164 - 16A
K10 94 - 0164 - 10A
K11 94 - 0164 - 11A
K12 94 - 0162 - 01C
K13 94 - 0161 - 01C
K14 94 - 0160 - 01C

SECTION L

PAGE DRAWING NO.
L1 94 - 0167 - 01
L2 94 - 0167 - 02
L3 94 - 0167 - 03
L4 94 - 0167 - 04
L5 94 - 0167 - 05A
L6 94 - 0167 - 06A
L7 94 - 0167 - 07
L8 94 - 0167 - 08
L9 94 - 0167 - 09
L10 94 - 0167 - 10
L11 94 - 0167 - 11
L12 94 - 0167 - 12
L13 94 - 0167 - 13
L14 94 - 0167 - 14
L15 94 - 0167 - 15
L16 02 - 0289 - 01
L17 02 - 0290 - 01
L18 02 - 0291 - 01

SECTION M

PAGE DRAWING NO.
M1 94 - 0163 - 01
M2 94 - 0163 - 02
M3 94 - 0163 - 03
M4 94 - 0163 - 04
M5 94 - 0163 - 05
M6 94 - 0163 - 06
M7 94 - 0163 - 07
M8 94 - 0163 - 08
M9 94 - 0163 - 09
M10 94 - 0163 - 10
M11 94 - 0163 - 11
M12 94 - 0163 - 12
M13 94 - 0163 - 13
M14 94 - 0163 - 14
M15
M16 94 - 0163 - 16
M17 94 - 0163 - 17
M18 94 - 0163 - 18
M19 94 - 0163 - 19

CONNECTIONS (Continued)

TITLE
Connections Left/Right into Access Chambers with/without Large Jump Up.
Connections 'Ahead' into Access Chambers with or without Large Jump-Up.
Water Seals on Connections.
Connections off DN 375 and Larger VC and RCRJ Trunk Sewers.
Connections off Existing DN 150, 225 and 300 VC Sewers.
Connections off Existing DN 150, 225 and 300 UPVC Sewers.

MAINTENANCE STRUCTURES & INSPECTION OPENINGS

TITLE
General Notes.
Access Chamber and Inspection Opening Locations in Roadways & Easements DN 150 Inspection Openings.
Typical Construction Details for 900 Internal Diameter Access Chamber.
Typical Construction Details for 1050 Internal Diameter Access Chamber.
Typical Construction Details for 1200 Internal Diameter Access Chamber.
Construction Details for 1400 Internal Diameter Access Chamber with Conical Top.
Typical Construction Details for 1500 Internal Diameter 'Control' Access Chamber.
Bench and Channel Details in Access Chambers for Sewers up to DN 600.
Channel Configurations in Access Chambers for Sewers up to DN 600
Access Chamber with 150 DN External Jump Up.
Access Chamber with 150 DN Internal Sewer Jump Up.
Trunk Sewer Access Chamber for 675 and 750 Sewers.
Lightweight Access Chamber for use in Easements with Restricted Access.
Height and Crossfall Adjustment Details for Access Chamber Slabs
Maintenance Shafts Installation
Maintenance Shafts with Variable Bends
Terminal Maintenance Shafts and Connections

STANDARD SUBMERSIBLE SEWAGE PUMPING STATIONS

TITLE
Site Arrangement
Standard Notes Sheet 1.
Standard Notes Sheet 2.
Standard Notes Sheet 3.
Site Arrangement and Access Where Station Abuts a Public Road.
Site Arrangement and Access Road Where Station Does Not Abut a Road.
Plan and Section.
Electrical Cubicle, Base and Conduit Details.
ETSA Service and Telemetry Details Including Trenchfill for Electrical Conduits
Fence Detail (Typical).
DN 40 Water Service
Access Roadway, Cross Section and Drainage Details (Typical).
Typical Arrangement for Valve Chamber (Non-Trafficable).
Typical Arrangement for Valve Chamber With Flow Meter (Non-Trafficable).
To be Issued
In-Line Stop Valve Assembly for DN 100 to DN 200 Sewage Pumping Mains
Pump-out Branch for Sewage Pumping Mains
Air Relief Valves for Sewage Pumping Mains
Indicator Post and Signs for Sewage Pumping Mains

QUICK REFERENCE

TITLE
Quick Reference A - I.
Quick Reference J - Z.
