

WATER GOOD

Mulch

MULCH IS A CURE
FOR GARDEN WOE
*it also
saves your
water flow*

Mulching reduces weed growth and is one of the best ways to keep water use to a minimum in your garden. It also breaks down and feeds your plants and helps prevent the soil from drying out too quickly. Go for organic mulch.

Before you mulch remember to pull out weeds, break up the soil crust and water the garden within the allowed times for your area.

Save money and water with a water efficient garden goods rebate of up to \$100 when you spend \$250 on eligible water efficient garden goods.

Visit www.sawater.com.au or call 1800 130 952 for details.
