> 0.5 m – 1.0 m	\$ 893
> 1.0 m – 2.0 m	\$ 991
> 2.0 m – 3.0 m	\$1 087
> 3.0 m – 4.0 m	\$1 186

Note

1. **It is the customer's responsibility to reconnect any existing internal pipework to the water meter.**
2. SA Water cannot provide reconnection of existing pipework as piping materials used for water supply systems within private properties vary. The range of different piping includes copper, unplasticised polyvinyl chloride (UPVC), polyethylene (PE), cross-linked polyethylene (PE-X), polybutylene (PB) and galvanised steel. The jointing methods and fittings required vary greatly.
3. At the time of application a contact name and phone number will be required so that the customer can be advised of the programmed date of the relocation.
4. When choosing your new meter position, please ensure there are no site obstructions, such as large trees or stobie poles, electricity or gas boxes, site toilet, rubble, brick letterbox, etc.
