

Contacts for Spills or Leaks

Trade Waste Fact Sheet No. 6

GENERAL SERVICE DIFFICULTIES

For assistance with general water and sewerage service problems, dial

1300 883 121 (all areas)

MAJOR EVENT

- If your staff are at risk if they attempt to clean up
- If the spillage presents a hazard to the public or the environment
- If any spilled material escapes outside your premises
- If the spill/leak exceeds your capacity to deal with it
- If you lack necessary safety equipment to deal with the spill/leak (e.g. self-contained breathing apparatus and/or protective clothing).

FIRE – POLICE - AMBULANCE

Dial Triple Zero (000)

OR Dial 112(mobile phone)

And ensure the safety of all people in the area

SPILLS - LEAKS to SEWER

- If spill/leak has or might have entered the sewer
- If wastewater pre-treatment system fails
- If concentrated product has or might have entered the sewer

SA WATER TRADE WASTE ON-CALL PHONE

Dial 0439 888 164

MINOR SPILLS

If it is possible to do so without exposing yourself to the material, use sand or soil to prevent the spillage entering drains or waterways.

If the spill is minor and you can safely recover the material, call the SA Water Trade Waste Branch on (08) 7424 1336 during business hours for advice on appropriate disposal methods.

Reviewed December 2011
