

WATER  GOOD

Trees

*Water trees
in the same spot
every time*

KEEP IT UP
and **ENJOY**
THEIR PRIME

Don't try to wet the entire root area, rather concentrate the water in a defined area and the tree will maintain its root activity there.

The larger the tree the less often it should be watered.

In the heat of summer stressed trees benefit from being watered every week or fortnight depending on the existing moisture in the soil, your soil type and the size of your tree.

Save money and water with a water efficient garden goods rebate of up to \$100 when you spend \$250 on eligible water efficient garden goods.

Visit www.sawater.com.au or call 1800 130 952 for details.

For more handy tips consult your local nursery or garden centre.
