

<b>Drawing Number</b>	<b>SA Water WSCM Drawing(s)</b>	<b>Remarks</b>
All		The Water Supply Code of Australia Drawings detail a number of Best Practice options and arrangements.  While these are all options, they are not necessarily suitable for use in South Australian conditions.  The existing WSCM Drawings are to be taken as the "Deemed to Comply" solution unless one of the other option is specifically specified in the Design Drawings.
WAT-1100		Contact SA Water for requirements
WAT-1101		Contact SA Water for requirements
WAT-1102	See Section C	
WAT-1103	See Section C	
WAT-1104	C13 & C13a	
WAT-1105	C5 to C7	
WAT-1106		Not covered in WSCM
WAT-1107		Not covered in WSCM
WAT-1108	See Section E	
WAT-1109	See Section E	
WAT-1200	B6	
WAT-1201	B1 to B5	
WAT-1202	B1 to B5	
WAT-1203	B1 to B5	
WAT-1204	B1 to B5	
WAT-1205	B7	
WAT-1206		May be used as Temporary Thrust Blocks only
WAT-1207	B8	
WAT-1208	B9	
WAT-1209		Not commonly used in SA unless trench passes through an underground stream or waterway or other very steep areas
