Level 3 Enhanced Water Restrictions

Recreational turf areas

Turf areas that have a functional purpose such as for junior play, may be watered **once per week via sprinklers or sub-surface drip irrigation for a maximum of three hours only between 8pm and 8am the following morning**. The day of the week and time of operation for each of the stations is to be determined in conjunction with SA Water and subject to a water restriction permit.

Hand held hoses fitted with a trigger nozzle may be used on any day but only before 8am or after 8pm.

Garden beds and subsequent lawn areas

Garden beds and lawns areas maintained for aesthetic reasons may only be watered via dripper systems and hand held hoses fitted with a trigger nozzle for a **maximum of 5 hours a week between the hours of 6am to 9am or 6pm to 9pm on any day**.

Watering cans and buckets can be used at anytime filled directly from a tap.

Sprinklers and other watering systems remain banned.

Sandpits

Wetting down of sandpits for dust suppression may be done at anytime via a hand-held hose fitted with a trigger nozzle.

N.B. Testing of irrigation systems is not permitted without an approved water restriction permit.

If current restrictions cannot be adhered to a site inspection is required to be conducted.

If an exemption is required from current restrictions the alternative permit process Irrigated Public Open Space (IPOS) allows increased flexibility to irrigate while retaining 'a fit for purpose turf', aversion of public health and safety issues and many other benefits. For further information about IPOS telephone 08 7424 3719 or email iposadmin@sawater.com.au.

For further information about level 3 enhanced water restrictions or to download a permit application, please visit www.sawater.com.au or call the Water Restrictions Hotline on 1800 130 952.
