

TECHNICAL GUIDELINE**GENERAL TECHNICAL INFORMATION FOR
GEOTECHNICAL DESIGN**

Issued by: Manager Engineering

Issue Date: 10 January 2007

This document is copyright and all rights are reserved by SA Water. No part may be reproduced, copied or transmitted in any form or by any means without the express written permission of SA Water.

The information contained in these Guidelines is strictly for the private use of the intended recipient in relation to works or projects of SA Water.

These Guidelines have been prepared for SA Water's own internal use and SA Water makes no representation as to the quality, accuracy or suitability of the information for any other purpose.

It is the responsibility of the users of these Guidelines to ensure that the application of information is appropriate and that any designs based on these Guidelines are fit for SA Water's purposes and comply with all relevant Australian Standards, Acts and regulations. Users of these Guidelines accept sole responsibility for interpretation and use of the information contained in these Guidelines.

SA Water and its officers accept no liability for any loss or damage caused by reliance on these Guidelines whether caused by error, omission, misdirection, misstatement, misinterpretation or negligence of SA Water.

Users should independently verify the accuracy, fitness for purpose and application of information contained in these Guidelines.

The currency of these Guidelines should be checked prior to use.

No Changes Required In the January 2007 Edition

The following lists the major changes to the November 2004 edition of TG 10:

1. Nil

Contents

NO CHANGES REQUIRED IN THE JANUARY 2007 EDITION.....	2
SECTION 1: PREFACE TO MANUAL	4

PART A: COMPACTION

PART B: EARTH DAM DESIGN

PART C: EARTHWORKS

PART D: ENVIRONMENTAL ISSUES

PART E: HYDROGEOLOGY

PART F: LINED STORAGEES

PART G: MATERIALS

PART H: PERMEABILITY

PART I: PILE DRIVING

PART J: PIPELINES

PART K: GEOTECHNICAL SI UNITS SYSTEM

PART L: SOIL TESTING

PART M: SURVEY PILLARS

Section 1: Preface to Manual

This document contains general information for the design of civil & geotechnical works. This information has been developed from past experience and is intended to provide basic background information only. However the document contains quality information on design and design processes that have been proven to work for SA Water's infrastructure. It is the responsibility of the designers to ensure that the application of information is appropriate, meets SA Water's requirements and complies with all relevant Australian Standards, Acts and regulations.

References in this document to specific Standards are kept to a minimum as compliance with the applicable Standards is mandatory. As Standards are constantly being updated and revised, any Standards referred to in this document should be checked to ensure that they are current and appropriate.
