- Have you read the terms and conditions on the reverse side of this form to ensure that you are entitled to this rebate?

Mail this form and attachments to **SA Water Rebates, GPO Box 1751, ADELAIDE SA 5001**

Full Terms and Conditions

The following outlines the terms and conditions for the Showerhead Rebate.
Under SA Water's H₂OME REBATE scheme available from 1st November 2007.

Eligibility

- 1) People eligible for the rebates include homeowners, private tenants, South Australian Housing Trust tenants including non SA Water customers who have purchased eligible products on or after 1 November 2007. Charitable organisations may be eligible for rebates for residential properties.
- 2) The rebates are not available for industrial and commercial purposes, including resale. The rebates are not available to strata companies or managing agents, commercial home builders or land developers.
- 3) The H₂OME REBATE scheme replaces the existing SA Water and South Australian Government Drought Response Scheme and the Rainwater Tank and Plumbing Rebate Scheme.
- 12) SA Water reserves the right to alter or change the terms and conditions of the H₂OME REBATE scheme or to cancel the rebate scheme at any time.
- 13) Information provided on the application form may be used to measure and monitor the success of the scheme. Rebate recipients consent to and recognise that SA Water may contact them to conduct research about the products purchased.
- 14) The applicant's personal information will only be used or disclosed for purposes relating to the H₂OME REBATE scheme in accordance with the State Government Information Privacy Principles. If you wish to update or access the information that we hold about you, please contact us.

General

- 4) All receipts for eligible goods purchased must be dated on or after 1 November 2007. For products that have been purchased through lay-by the rebate is available only if the final payment has been made on or after 1 November 2007. For date eligibility for the rainwater tanks, please see the full terms and conditions on the reverse side of the rainwater tank rebate application form.
- 5) Rebates are not available for rented, leased or hired products. Products that form part of insurance claims are not eligible for rebates.
- 6) Second hand items will only be rebated from a registered business with an ABN. Receipt/tax invoice must be attached as proof.
- 7) The applicant must provide original receipts/tax invoices to be eligible for the rebates. It is the applicant's responsibility to make their own copy for its personal records as receipts/tax invoices will only be returned upon request. Application forms will not be accepted if they are incomplete or do not have the original receipts attached.
- 8) SA Water will not be responsible for items lost or delayed in the mail, nor any remittance delayed due to incorrect rebate applications.
- 9) SA Water reserves the right to conduct field inspections to verify your claim in the event that SA Water finds the applicant in breach of these terms and conditions, the rebate amount will need to be repaid to SA Water.
- 10) The applicant agrees and acknowledges that SA Water accepts no liability for the performance, quality or installation of equipment eligible for this rebate. The applicant agrees that they will indemnify SA Water for any liability or claim arising in relation to a product they have installed in order to claim a rebate.
- 11) SA Water and its employees have taken all reasonable care to accurately and correctly convey the scope of the H₂OME REBATE scheme and of the applicants entitlements under the scheme, and shall not be liable for any inadvertent errors. Furthermore SA Water does not assert that the scheme is in all cases appropriate for every resident.
- 15) SA Water will pay rebates for up to 3 showerheads in a residential property to a maximum of \$30 for each showerhead. The original receipt/tax invoice stating the date and place of purchase, make and model of showerhead purchased, receipt number and store ABN, and showing payment in full, is required to receive the rebate.
- 16) The showerhead must feature a WELS rating of at least 3 stars or more to be eligible for the rebate. WELS is Australia's national mandatory water efficiency and labelling standards. For information about the WELS scheme visit www.waterrating.gov.au.
- 17) The showerhead must also carry a WaterMark approval. All plumbing products that are installed and connected to SA Water supply must carry a WaterMark approval. The WaterMark certifies that the product complies with Australian standards and it helps consumers to be confident that the product they are buying is of a high standard. To find out more visit www.watermarkstandards.org.au
- 18) The showerhead must be purchased for personal use only and must not be resold or used for commercial purposes.
- 19) Showerheads for new houses or home extensions are not eligible for the rebate.
- 20) The applicant must ensure advice has been taken to ensure suitability of the showerhead for their purposes. Low-flow showerheads cannot be used with all plumbing systems. This is because these showerheads rely on mains water pressure to work, some instantaneous type and gravity-fed hot water systems are low pressure systems. If you have a low pressure hot water system you do not need a water efficient showerhead as your hot water system is already water efficient.
- 21) A rebate of up to \$30 is allowed. If the purchase price is less than \$30 a rebate of the actual purchase price will be issued.
- 22) Tenants need to provide a written letter of permission from their landlord with their application to be eligible for the rebate.
