

## Information Sheet

### SA Water Recycled Water Bookings

Contract plumbers are required to book recycled water inspections with SA Water, at the following stages of installation:

- **In-Ground**
- **In-Wall**
- **Final Fix**

Recycled water installations are required to have 100% booking and inspections undertaken. Recycled plumbing pipe-work is not to be covered or backfilled until it has passed inspection.

The following areas, supplied with recycled water, are required to have inspections booked with SA Water:

- **Andrews Farm**
- **Blakeview**
- **Blakes Crossing**
- **Campbelltown (Lochiel Park)**
- **Mawson Lakes**
- **Munno Para West**
- **Seaford Meadows**
- **Sellicks Beach**

Inspections can be booked by calling **1300 884 055** by 3:00 pm on the day prior to the day an inspection is required.

Note: When conducting recycled water installations that are not in areas listed above, the contract plumber will need to contact the developer or relevant local council, for recycled water booking requirements.

To find out more about the requirements regarding recycled water installations, please visit the SA Water website by using the following link:
