

Sanitary Plumbing Application

Installation of underfloor (below ground) sanitary plumbing or drains prior to the installation of the sewer connection

Date:			
Lot no:		House no:	
Street:		Suburb:	

I wish to apply for the installation of *(please tick box to indicate preference)*

1.	Below ground sanitary plumbing prior to installation of the sewer connection	
2.	Part of the sanitary drain prior to the installation of the sewer connection	
3.	Sanitary drain installed to the boundary line prior to installation of the sewer connection	

I understand my plumbing contractor may proceed to install below ground sanitary plumbing or drains prior to the availability of a sewer connection subject to:

1.	The appropriate fee is paid prior to the commencement of the below ground sanitary drain installation
2.	The internal sanitary drain terminates at the boundary line or the edge of the easement depending on which scenario is applicable
3.	The drain terminates at a right angle to the boundary line or edge of easement
4.	A temporarily raised and clearly visible location inspection opening is installed within 600mm of the boundary line or edge of easement
5.	Water from the test has been drained prior to sewer connection to the internal drain
6.	The drain is terminated at an agreed depth after consultation with SA Water

I understand if I or my plumbing contractor fails to comply with any of the above conditions, the proposed sewer connection will not be connected to the internal sanitary drain.

At my request, I have been informed of the proposed location and depth of the sewer connection. I understand this information is preliminary only and may be subject to change. In consideration of the provision of this information to me, I agree not to make any claim on SA Water or its contractors, officers, agents and servants for any costs for alterations that may become necessary to the internal sanitary plumbing or drainage:

should it not be possible to provide the sewer connection at the proposed depth and/or location;

OR

should I, or my plumbing contractor, fail to comply with any of the above conditions;

OR

should the sewer connection not be connected to the sanitary drain terminated at the boundary.

For further information contact:

Phone: 1300 650 950 Fax: (08) 7003 1362
